

Dreams... Where will yours take you?

Color Customizable Sterling Jewelry. Handcrafted in the USA.

80% of our items are under \$50. Growing rapidly nationwide.
We share your dream

Success in direct sales is simple: treat people right, build lasting relationships, enjoy what you do, and the opportunities will be endless. AZULI SKYE was founded on these principles. Our consultants dreams always come first. You work hard to earn your money, and we work hard right along with you to ensure your business is successful and profitable.

How we help

You will personally work with our top-notch company trainers, who will help get your AZULI SKYE business off the ground quickly. Before you know it, you will be finding hostesses, booking parties, and delighting customers.

Our average party sales are \$600, and your profit from that would be \$150 to \$210 for two hours of work.

- If you have just one average party per week, you'll spend about eight hours per month working

on your business, and could earn about \$720 each month

- If you increase your schedule to two parties per week, you'll work about 16 hours per month,

and earn about \$1680 for your effort...that's \$105 per hour

There is no cap to how much you can make, and that is why our consultants find it well worth their time to have as many parties as possible

Join the fun

Quite frankly, our parties are really fun. We have awesome ice breaker games that loosen everyone up and help the jewelry to sell itself.

Our consultants avoid formal sales pitches as most people do not respond well to them. Instead, we focus on creating a memorable experience for the hostess and her guests, and making sure everyone has a great time! Products for the times

It's no secret that affordability is back in vogue. You may find it hard to believe, but 80% of our items are under \$50, and 100% of our items are Made in the USA.

That's right, all of our products are handcrafted at our headquarters in North Carolina, so you can feel confident buying 100% sweatshop free Sterling jewelry at bargain prices. We do it all for you

So what does being a "consultant-friendly" company really mean? Aside from the fact that you can pick up the phone and talk to an actual live person, we've put a lot of thought into how to make our programs work best for you. For example:

- Our hostess program is free
- Credit card processing is free
- Your personal AZULI SKYE website is free
- There are no renewal fees or sales quotas
- Orders are individually packaged and shipped directly to the hostess. All our Consultant training and tools are free.

You will know your cost up front. We will not nickle and dime you to death, ever. Show me the money

Consultants make money in a number of ways:

- You earn a straight 25-35% commission on your sales (even on half-price items)
 - If you decide to build a team of consultants, you earn 10-15% on their sales, starting with your first new consultant
 - As you advance to Group Manager, you get a \$1000 cash bonus and each time a team member becomes a Group Manager, you get another \$1000
- For more details about our compensation plan, just click [here](#).

Your Choice of Consultant Kits

We offer three business startup packages. Choose the one which best fits your budget. You can get started today for as little as \$99.

All Consultant Kits include easy to use online ordering tools, all the printed materials and business supplies for your first parties, gorgeous black velvet displays, and of course, a great selection of stunning jewelry. They also include access to our exclusive online Consultant Cafe, which allows you to connect with consultants around the corner and across the country.
